Congo

Jen-min Jih-pao Editorial:

Both China and the Congo are developing countries, facing the common tasks of opposing imperialism and hegemonism, safeguarding national independence and sovereignty and developing the national economy. Though our two countries are tens of thousands of miles apart, our two peoples have always supported and encouraged each other and have forged a profound friendship in the protracted common struggle. After the establishment of diplomatic relations between China and the Congo, the Congolese Government always firmly supported the restoration of China's legitimate rights in the United Nations. We express our heartfelt thanks to the Congolese Government and the people for their friendly and warm support. The friendly cooperation between China and the Congo based on the five principles of peaceful co-existence has grown daily in recent years. We are convinced that the current visit to China by President N'Gouabi will further the growth of the traditional friendship between the people of China and the Congo.

("Jen-min Jih-pao Editorial Welcomes Congolese President," NCNA-English, Peking, July 27, 1973--SCMP 73-32/66-67)

*

Chou En-lai, Premier:

Both China and the Congo belong to the Third World. The Chinese and Congolese peoples are brothers and comrades-in-arms on the anti-imperialist front. They have always sympathized with and supported each other and forged a profound militant friendship in the common struggle to safeguard national independence and build their own countries. Since the establishment of diplomatic relations between China and the Congo in 1964, our two countries have carried on friendly cooperation in the political, economic, cultural and other fields. We are sure that His Excellency President N'Gouabi's current visit to China will further consolidate and develop the friendly relations and cooperation already existing between China and the Congo and make a new contribution to the Afro-Asian peoples' cause of unity against imperialism.

("Premier Chou En-lai's Speech," NCNA-English, Peking, July 28, 1973--SCMP 73-32/120-123)

*

Chou En-lai, Premier:

It is nearly ten years since diplomatic relations were established between China and the Congo, and there exist solidarity and friendly relations between our two countries. Solidarity and friendship between our two peoples shall continue from generation to generation. The entire Third World and the revolutionary people the world over are also gradually uniting themselves in opposition to aggression, subversion, interference, control and bullying by

imperialism and big-power hegemonism. We are sure that the strength of the daily awakening and more closely united Third World and revolutionary people of the world is invincible.

Iran

Kuo Mo-jo, Vice-Chairman of the NPC Standing Committee:

Both China and Iran are countries with ancient cultures. Since ancient times the people of our two countries have treated each other as close neighbors and our two countries have conducted economic and cultural exchanges through the world-renowned "silk road." Both our two countries were invaded and oppressed by imperialism in the past one hundred years or more. We are now both fighting for world peace and human progress and in defense of national independence and state sovereignty. Historical facts prove that the Chinese and Iranian peoples forged a profound friendship between them long ago. Today, we are glad to see the traditional friendship between our two peoples is developing rapidly on a new basis since the establishment of diplomatic relations between China and Iran.

Sino-Iranian relations are based on the five principles of peaceful co-existence. To develop the friendly relations between our two countries is fully in conformity with the aspirations of the people of the two countries. The current visit to China of the Iranian Parliamentary Delegation led by His Excellency Jaafar Sharif-Emami will add a new page to the annals of friendship between the two countries.

Netherlands

Kuo Mo-jo, Vice-Chairman of the NPC Standing Committee:

Although China and the Netherlands are far apart, friendly contacts between our two peoples started long ago. The Chinese people have always cherished friendly sentiments for the Dutch people..... Though China and the Netherlands have different social systems, both Governments recognize the principles of mutual respect for sovereignty and territorial integrity, non-interference in each other's internal affairs and equality and mutual benefit as a guide to the relations between the two countries and believe that to develop these relations on this basis is in the common interests of the two countries and the two peoples. We are glad to see that the relations between China and the Netherlands have been developing satisfactorily since the exchange of ambassadors. We are confident that ... the friendship between the Chinese and Dutch peoples and the good relations between the two countries will surely further develop.

Portugal and Portuguese Africa

Jen-min Jih-pao Article:

The massacre of Mozambique people by the Portuguese colonial authorities does not signify their strength, but shows their terrible fear and helplessness in the face of the victorious development of the Mozambique people's armed struggle.... The atrocities of the Portuguese colonial authorities have exposed once again before the world's people the barbarity and shamelessness of colonialism.

("Jen-min Jih-pao Article Condemns Portuguese Colonialist Atrocities in Mozambique," NCNA-English, Peking, July 15, 1973 -- SCMP 73-30/156-157)

*

NCNA Article:

In face of the angry condemnation from world opinion and the African people, the Portuguese colonial authorities were scared stiff and tried in every way possible to cover up their crimes.... Meanwhile, it is known to the whole world that the Portuguese authorities have all along followed a colonialist and racist policy in Angola, Guinea (Bissau) and Mozambique.... The Portuguese colonial authorities resort to genocidal massacre to "limit the black population." As pointed out by the Mozambique liberation front in a statement, the Wiriyamu Village massacre was the embodiment of the fascist genocidal policy pursued by Portugal.... The Mozambique people's liberation struggle is a just one. The Chinese people resolutely support their anti-imperialist and anti-colonialist struggle. Victory belongs to the heroic Mozambican people and those who butcher them will certainly be put in the dock by history!
